If a place is reserved and intended participant fail to attend the course, fee is to be settled in full. If participant made payment and failed to attend the course, the fee paid is non-refundable.
- The Organising Committee reserves the right to alter or change the programme due to unforeseen circumstances.
The implementation Seremban Middle Ring Road Project (MRRS) is now entering its third and final phase is a project that symbolizes Seremban as Planned Township. Construction of the last phase of the MRRS will be implemented under the 10th Malaysia Plan (RMK 10).

Seremban Middle Ring Road project along 20.5 kilometers worth RM2.4 billion turned out to be a big impact on the people of Negeri Sembilan, especially for the people of Seremban. MRRS implemented in phases starting from the Eighth Malaysia Plan (RMK8) and expected to be completed in the Tenth Malaysia Plan (RMK10).

All of the construction project Phase 1, Phase 2 and Phase 2A is being carried out by the same contractor, Temokin Villa Sdn. Bhd.

The entire project completed in Phase 3 MRRS included in the 10th Malaysia Plan and the state hopes it can be realized that dream in which, to complete the MRRS, the government hopes to get an allocation of RM500 million in RMK-10 from the central government.

Phase 3 of this project will cover the route at the junction of Jalan Labu, Jalan Bukit Galena, Jalan Bukit Gala, Jalan Mantin, Jalan Temiang until Jalan Temiang before the meeting on the Jalan Siamang Gagap.

As such, the Ministry gives priority to projects that can be completed in the 10th Plan which we believe that this project when completed will provide many benefits to the people in Negeri Sembilan and especially road users in Seremban..
